**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1, 7-13, 15, 17, 21-22, 24-41, are rejected under 35 U.S.C. 102(a) as being anticipated by prior art fig.1-2 of this application).

Regarding claim 1, 7-13, 15, 17, 21-22, 24-41, Prior art fig.1-2, comprising:

an antenna (see prior art fig.1, element 110);

an RF head coupled to said antenna and configured during a receive mode to receive an electromagnetic RF signal through said antenna and to convert said RF signal into a modulated baseband analog signal for baseband processing in said host computing device, said RF head further configured during a transmit mode to receive a modulated baseband analog signal generated by said host computing device and to convert said modulated baseband analog signal into an electromagnetic RF signal to feed to said antenna (see prior art fig.1, elements 110, 150); and

an interface coupled to said RF head and configured to physically couple said RF modem to said host computing device, said interface further configured during said receive mode to feed said modulated baseband analog signal generated by said RF head to said host computing device, such that said baseband processing unit is enabled to convert said modulated baseband analog signal into a plurality of bits of data

including protocol data and true data, and said CPU operating under the control of said protocol stack software program is enabled to separate said protocol data from said true data, said interface further configured during said transmit mode to feed said modulated baseband analog signal generated by said host computing device to said RF head (see prior art fig.1, element 170, 140 and prior art fig.2, element 200).

***Allowable Subject Matter***

3. Claims 2-6, 14, 16, and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
